

We are following COVID-19 recommendations to stay safe this summer. Per the Governor's orders, and CDC guidelines, we ask our members for help with a few things to stay safe this summer and keep our costs low.

STOP!

Do not enter if you have these symptoms of COVID-19

- Cough
- Shortness of breath
- Fever
- Chills
- Muscle pain
- Headache
- Sore throat
- Loss of taste or smell

- 1) **Please bring your own chairs.** This way you can be sure to have a seat, and the lifeguards can focus their attention on water safety instead of cleaning chairs.
- 2) **For the time being, please leave all toys, floats, noodles, etc. at home** to reduce the risk of COVID-19 spread. We know this can be a challenge for kids right now, but until the CDC and NC DHHS recommendations are relaxed this is an easy way to stay safe and open. The Board will reevaluate these restrictions on a regular basis.
- 3) **Please enter and exit the pool using the front gate only.** This helps us track occupancy limits, plan appropriate staffing levels, and maintain pool safety. The rear gate must stay closed except for emergencies and maintenance, per public safety regulations.
- 4) **All swimmers should shower before entering the pool,** and all visitors should continue to wash hands regularly to reduce the risk of transmission.
- 5) **Social distancing between families should be practiced in the water and on the deck.** This is our only real protection against the virus right now. We know it is not always possible, especially in some areas around the pool. Masks are recommended on the deck, but should not be worn in the water.

Q: What is being done to sanitize and disinfect high-traffic areas of the pool?

A: Lifeguards and staff will clean bathrooms, handrails, doorknobs, and other high-traffic surfaces around the pool every 30-60 minutes depending on how busy the pool is.

Q: What are the occupancy limits for the pool? Will we be turned away?

A: Phase 2 guidelines currently limit us to 70 people in the water, and 448 people on the deck. Even before COVID-19, we rarely approach these limits. If there is a particularly busy day (such as a holiday), and too many people are in the water we will make an announcement so that people may voluntarily sit on the deck for a while.

Q: If we return to Phase 1 or the pool is forced to close this year, what will be done?

A: The board will be doing what it can to maintain access to the pool for a "full season". It is going to look a little different this year regardless. At the end of this season, if hours have been severely curtailed as a result of COVID-19 shutdowns, a pro-rata amount for memberships will be determined and rolled over to next season (or refunded upon request).
